International Year of Artisanal Fisheries and Aquaculture 2022

The global food system faces many complex challenges, including hunger, malnutrition and diet-related diseases, an ever-growing global population that needs sufficient and healthy food, the need to reduce food loss

and waste, the depletion of natural resources and effects of climate change, as well as the effects of the current COVID-19 pandemic. Fish, molluscs, crustaceans and aquatic plants are fundamental, essential and indispensable foods eaten by people around the world as part of healthy diets, cultural heritage and culinary tradition. Small-scale artisanal fishers and fish farmers produce a large portion of this food, and as such, IYAFA 2022 is an opportunity to highlight the importance of small-scale artisanal fisheries and aquaculture for our food systems, livelihoods, culture and the environment.

Small-scale fishers, fish farmers and fish workers hold enormous potential to promote transformative changes in how, by whom and for whom fish and fishery products are produced, processed and distributed – with positive ripple effects felt throughout the global food system. IYAFA 2022 aims to raise awareness on the role of small-scale fisheries and aquaculture, strengthen science-policy interaction, empower stakeholders to take action, and to build new and strengthen existing partnerships. IYAFA 2022 can also act as a springboard towards implementing the Code of Conduct for Responsible Fisheries and related documents, like the Voluntary Guidelines for Securing Sustainable Small-Scale Fisheries in the Context of Food Security and Poverty Eradication, and take concrete actions towards achieving the Sustainable Development Goals (SDGs) as we enter the last decade of action to achieve the 2030 Agenda. It also falls within the UN Decade of Family Farming, the two observances will reinforce one another in providing greater visibility to small-scale artisanal fishers, fish farmers and fish workers.

Let's work together for a world in which small-scale artisanal fishers, fish farmers and fish workers are fully recognized and empowered to continue their contributions for human well-being, food systems and poverty alleviation through the responsible and sustainable use of fisheries and aquaculture resources.
